Rich in tradition, yet innovative

Lasavia natural cosmetics can look back on a long family tradition. It was the great-grandfather Karl Dözer who established the family-run pharmacy in Groß-Süßen, Baden-Württemberg, on 1 April 1930. Besides the usual medicines, the pharmacist also offered homeopathic remedies such as "Süßen Cough Sweets", creams, hair oils and other cosmetics made of fresh herbs from the medicinal herb garden. In keeping with tradition, Christian Portig and his brother founded the natural cosmetics company Lasavia. Today, based on knowledge passed down the generations and on local medicinal herbs, they develop modern, innovative active agent concepts.
